

Canteen

Shaheed Bir Uttam Lt. Anwar Girls' College has a very rich and well-furnished canteen situated in the middle of the six blocks of the institution considering the need of the 11000 students who come to the institution for education. The canteen ensures a hygiene environment and satisfies the demand of the students. Besides, the price of the food is kept reasonable so that the students of all background can have their tiffin easily from here.

There is another canteen beside the internal canteen adjacent to the guardian's shed near the parking area which sells food and it has a corner for tailoring as well. Both the canteens sell lots of food items along with educational necessities and the food which is sold is prepared inside the campus having a supervision about the food value as well as quality by the Principal himself.
