SPORTS CLUB

SPORTS CLUB

Sports, dance and music has been playing a significant role in human life since time immemorial. However, it's flow has been rapidly changing along with the change of taste and choice of the people in our modern civilization. Similarly, Shaheed Bir Uttam Lt. Anwar Girls College has been playing a vital role in developing the physical and mental well being of it's students through introducing different types and categories of sports alongside studies since it's inception in the year 1991. Since then various games organized by school and college has taken the academic career of our institution on a different level of excellence. Thus our students were able to test their skills and upgrade themselves according to higher standards. Keeping this consistency of flow ongoing, our SAGC sports club was successfully able to get official recognition in the year 2015.

Cont.

However, our club consists of only two sports captains and no panel has been formed till date. Our club also consists of numerous students who are playing the most vital role in enhancing the reputation and goodwill of the club through their dedication, hard work and skilled sportsmanship. Our college students have taken our club to the peak of success by winning numerous prizes and taking part in various competitions. And thus our students were able to enhance the pride of our college. We hope that this wonderful journey will continue and our students will keep making our college proud through their sheer dedication, hard work and perseverance.

Aims of our sports club

Physical fitness and skills.

Mental alertness.

Ethical qualities.

Constructive social abilities.

Emotional maturity.

OUR OBJECTIVES

Message of moderator

Since the establishment of our Sports Club in 2015, our students participate in various sports(handball, football, volleyball, cricket, race also indoor games) on the first and third Saturday of every month. During the practice, it is seen that the students participate in sports with the encouragement of physical and mental abilities. As a result, they develop physical well-being, widening of their mental abilities, knowledge, intelligence, mutual co-operation, sympathy, morality, discipline, sense of law and thus they grow up into an ideal citizen.

Cont.

And instead of losing their self confidence, they are encouraged to move forward with even more energy and mental strength. Thus, they are able to enhance the respect of their family, society, country and demonstrate their skills on national and international level. Therefore, I think it is essential to make arrangement for sports along with education in the educational institutions of every state or country in the world. The authorities of our Shaheed Bir Uttam Lt. Anwar Girl's College have been playing a very important role in this regard. The authorities of this college have made all the necessary arrangements for the students to reach the peak of development.

Cont.

Our college authorities have established clubs in cultural subjects, provided science based knowledge to our students, and also created photography, debate, language, general knowledge, arts and craft club etc. Our college students have been able to introduce our educational institution as an ideal institute in different places all over the country. For this I am specially grateful to our authorities.

MISSION

1. The sports club program is student-driven and helps to develop students leadership and skills.
2. makes students physically and mentally beautiful.
3. Builds as a good and efficient citizen.

VISION

4. Every year in June-July steps should be taken to involve the students of class XI in sports as well as morality.
5. Improving sports further through advanced training and making students fit for national sports.
6. Adding new games and creating more opportunities for every students to join.
7. To create more skilled players by making arrangements for different competitive sports.
